

fixing, and problem solving by this incredible family. Frank Rewold passed the legacy onto his apprentice and son Roy Rewold.

Over the last 100 years, generations of Rewolds have designed and built countless structures in our community—everything from higher education buildings to manufacturing facilities. I'm proud of the heritage and reputation this company has maintained since 1918—their integrity, relationship focused, and honest outlook have resulted in historical connections that span generations.

In their 4th generation of leadership, Frank Rewold and Son has continued to be family owned and operated business. I'm grateful to have the incredible Frank Rewold and Son team investing and thriving in our community for the last 100 years.

Again—congratulations to Frank Rewold and Son on achieving this enormous milestone. I wish them continued success in the future.

HONORING THE 125TH ANNIVERSARY OF WHEELER MISSION MINISTRIES

HON. TODD ROKITA

OF INDIANA

IN THE HOUSE OF REPRESENTATIVES

Friday, September 28, 2018

Mr. ROKITA. Mr. Speaker, I rise today to recognize and salute an exceptional ministry in the State of Indiana. This year Wheeler Mission Ministries is celebrating its 125th anniversary.

In 1893, a small group of women from the Women's Christian Temperance Union recognized a tragedy in their city: "friendless women" in Indianapolis were regularly abandoned at Union Station, having no place to go and no one to care for them. As a response, these pioneering women opened a small refuge and residence for women in need, a refuge known today as Wheeler Mission. One hundred twenty-five years later, Wheeler Mission has expanded to become the oldest continuously operating ministry of its kind in the state of Indiana. Offering the Indianapolis and Bloomington communities homeless shelters, residential programming, addiction recovery services, and social enterprises, Wheeler has expanded to 9 locations and dozens of ministries. While its programs and services have adapted to meet the ever-changing needs of the community, Wheeler remains focused and unwavering in its commitment to Christ and the transformation that is possible through the Gospel.

PERSONAL EXPLANATION

HON. STEVE KING

OF IOWA

IN THE HOUSE OF REPRESENTATIVES

Friday, September 28, 2018

Mr. KING of Iowa. Mr. Speaker, on September 25, 2018, I voted against H.R. 6369, the Expanding Contracting Opportunities for Small Business Act of 2018, as amended (Roll Call No. 401). H.R. 6369 was brought to the floor for a vote under suspension of the Rules of the House of Representatives. H.R. 6369 increases the dollar cap of sole-source awards

under the HUBZone Program, Service-Disabled Veteran-Owned Small Business (SDVOSB) Program, and Women-Owned Small Business (WOSB) Program. Although I support increasing the dollar cap of sole-source awards for our nation's service-disabled veterans, I reject the equivocation between service-disabled veterans and women. When it comes to being a small business owner, it is easy to understand that our nation's service-disabled veterans may need and definitely deserve an assist. However, women are just as qualified and able to succeed as anyone. We should not equivocate between those who served our nation and suffered a disability on account of it, and those who are biologically female, and fully capable of succeeding as a small business owner, just as much as any other American.

SAINT AMBROSE EPISCOPAL CHURCH: 150 YEARS OF FAITHFUL WITNESS

HON. DAVID E. PRICE

OF NORTH CAROLINA

IN THE HOUSE OF REPRESENTATIVES

Friday, September 28, 2018

Mr. PRICE of North Carolina. Mr. Speaker, I rise today to commemorate the 150th anniversary of Saint Ambrose Episcopal Church, located in the district I represent in Raleigh, North Carolina.

Saint Ambrose was founded in 1868 as a ministry to recently emancipated persons of African ancestry. At its founding, Saint Ambrose Church was the worshiping community associated with Saint Augustine's College. Reverend Jacob Brinton Smith was the first pastor, and the first building was placed on a tract authorized by the North Carolina legislature in downtown Raleigh.

In 1896, under the leadership of Rev. James E. King, St. Ambrose became a free-standing congregation. Shortly thereafter, parishioners moved the entire building one mile, to the corner of South Wilmington and Cabarrus Streets, and renovated the church to include education rooms and a rectory. In the 1950's, under the leadership of Rev. George A. Fisher, the church attained parish status, becoming the first historically African American mission in the Episcopal Diocese of North Carolina to do so.

My own ties to St. Ambrose date to the long tenure (1959–98) of a wonderful pastor, Rev. Arthur Calloway, who also served three terms on the Raleigh City Council. Father Calloway oversaw the construction of the church's present facility on Darby Street in 1965 and the addition of an education wing in 1987. He was a civil rights leader, a prophetic voice in the community, and a mentor to many—among whom I am privileged to count myself.

Today, Saint Ambrose continues in this strong tradition of ministry and service, led by an inspiring young pastor, Rev. Robert Jermonde Taylor. He was preceded by Rev. Kimberly Lucas, the first female rector and the first African American woman ordained priest in the diocese.

As we look back at the legacy of Saint Ambrose, we give thanks for the church's positive impact on the lives of countless citizens in Raleigh and the surrounding communities. The congregation has set a powerful example by

proclaiming the gospel faithfully and ministering to the community in multiple ways—ranging from tutoring at-risk youth to partnering with Raleigh Urban Ministries, Alcoholics and Narcotics Anonymous, and Partners for Environmental Justice. On behalf of North Carolina's congressional delegation and my constituents in the Fourth District, I am pleased to offer my congratulations to the leaders, congregants, and friends of Saint Ambrose Episcopal Church as they celebrate their 150th Anniversary and look forward to the decades of ministry and service to come.

RECOGNIZING SEPTEMBER AS DYSTONIA AWARENESS MONTH

HON. CHRISTOPHER H. SMITH

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Friday, September 28, 2018

Mr. SMITH of New Jersey. Mr. Speaker, I rise today to join those who have participated in public activities and forums this month to mark September as Dystonia Awareness Month. Public awareness events and campaigns help raise funds for improved research and treatment to one day find a cure.

Dystonia is a neurological movement disorder that causes muscles to contract and spasm involuntarily. It affects men, women, and children. Dystonia can be generalized, affecting all major muscle groups, and resulting in twisting, repetitive movements and abnormal postures. It can also be focal, affecting a specific part of the body such as legs, arms, hands, neck, face, mouth, eyelids, or vocal cords.

Dystonia is a chronic disorder producing symptoms that vary in degrees of frequency, intensity, disability, and pain depending on the type of dystonia. The inability to predict or control the movements of body parts vital to mobility and communication has a profound impact on an individual's life, and the lives of their loved ones.

I am proud to represent the Nachbar Family of Freehold, New Jersey. Janice and Len Nachbar are the incredibly devoted parents of Joanna—a beautiful, smart woman who is afflicted with dystonia. In their role as leaders of the Central New Jersey Dystonia Support and Action Group, they are active advocates on behalf of their daughter and the dystonia community. The Nachbars are just one of the thousands of families nationwide who are part of the Dystonia Medical Research Foundation which raises awareness for dystonia and provides support to patients, families, and caregivers.

Since I first met the Nachbars and learned of dystonia, I have repeatedly requested adequate appropriations for important research funded by the National Institutes of Health and the Department of Defense, and in 2015 I hosted a Congressional briefing where the Nachbars and other members of the dystonia community testified to the importance of funding and awareness for this terrible disorder.

Despite the prevalence of dystonia, awareness and proper diagnosis of this disorder is extremely limited. Many patients report that it took visits to numerous physicians over the course of years to get a correct diagnosis. Currently there is no single test to confirm the diagnosis of dystonia. Instead, the diagnosis
